7
DEC**D&I Subcommittee Meeting****Wednesday, December 7, 2022**

🕒 Time: 9:00 AM – 10:00 AM

🌐 Location:

Time zone: CT

INVITATION:

If you are attending the 15th Annual Conference on the Science of Dissemination and Implementation in Health conference in Washington DC, 11-14 DEC, please be informed that the HLB-SIMPLe Federal Team will be meeting with the Research Coordinating Center (RCC) for an informal meet-and-greet get-together on 13 DEC between 5 and 8 pm local Eastern time.

If you are attending this conference or are in the Washington DC area, you are cordially invited to join us. While we do not yet know the location, it will likely be at a local establishment serving drinks and food.

Please let me know if you plan to attend this informal gathering so that the Federal Team can ensure adequate space. As soon as we know the details (location/address and exact time), we will distribute to the attendees.

Looking forward to seeing you in Washington DC if you are attending this

Announcements

Data Science for Health Discovery and Innovation in Africa (DS-I Africa)

Protection of human subjects

Per NIH policy, [human subjects protection training](#) is required every three years for all key personnel who are involved in the design or conduct of NIH-funded human subjects research. To satisfy this requirement, only good clinical practice (GCP) is acceptable (<https://grants.nih.gov/policy/clinical-trials/good-clinical-training.htm>). CITI certificate is only acceptable if it specifically says it is for GCP training (CITI offers many different courses). Online training is available in a variety of languages, free of charge, through several organizations, including but not limited to the following online courses: Global Health Training Centre (<https://globalhealthtrainingcentre.tghn.org/ich-good-clinical-practice/>); Training and Resources in Research Ethics Evaluation (<https://elearning.trree.org/>). The RCC and NIH do not require or endorse any specific training program.

NIH Data Management and Sharing (DMS) Policy

What does this policy mean for you and key factors to consider when sharing data, coming January 25, 2023. [Read More](#)

NHLBI Adverse Event (AE) and Unanticipated Problem (UP) Reporting Policy

This policy applies to all human subjects research funded in whole or in part by NHLBI extramural programs. This guideline outlines definitions and policies and procedures for reporting. [Read more](#)
