Protection of human subjects

Per NIH policy, [human subjects protection training](#) is required every three years for all key personnel who are involved in the design or conduct of NIH-funded human subjects research. To satisfy this requirement, only good clinical practice (GCP) is acceptable

(<https://grants.nih.gov/policy/clinical-trials/good-clinical-training.htm>). CITI certificate is only acceptable if it specifically says it is for GCP training (CITI offers many different courses). Online training is available in a variety of languages, free of charge, through several organizations, including but not limited to the following online courses: Global Health Training Centre (<https://globalhealthtrainingcentre.tghn.org/ich-good-clinical-practice/>); Training and Resources in Research Ethics Evaluation (<https://elearning.trree.org/>). The RCC and NIH do not require or endorse any specific training program.
